**A RESOLUTION
BY TRANSPORTATION COMMITTEE**

**A RESOLUTION TO STATE THE CITY COUNCIL'S SUPPORT
FOR CERTAIN ASPECTS OF MOBILITY 2030; TO STATE THE
CITY COUNCIL'S OPPOSITION TO CERTAIN ASPECTS OF
MOBILITY 2030; AND FOR OTHER PURPOSES.**

WHEREAS, the City of Atlanta desires to be the regional leader for efficient, effective and affordable transportation systems that promote quality of life through sustainable development, land use, economic development, and best environmental practices, and

WHEREAS, the City of Atlanta is a partner and participant of the Atlanta Regional Commission (ARC) and the Transportation and Air Quality Committee (TAQC), which is the transportation planning body of the Atlanta Metro Region, and

WHEREAS, the TAQC is the ARC standing committee with the authority and responsibility for creating the long-term Regional Transportation Plan (RTP) and short-term Transportation Improvements Plan (TIP) to address the needs of all citizens within the Atlanta metropolitan region, and

WHEREAS, the draft Mobility 2030 plan does not adequately address the goals and strategies of ARC's own Regional Development Plan, and

WHEREAS, the draft Mobility 2030 Plan does not adequately address the needs of the transit dependent; certain minority communities; reverse commute opportunities for City residents; or transportation options for aging populations, and

WHEREAS, The Regional Transportation Plan does not reflect ARC's own Household Travel Survey results which show that the majority of trips are not taken during the AM and PM peak hours; that the majority of trips are not taken for the sole purpose of work; and that the majority of trips are made entirely within a single county, and

WHEREAS, the City Council supports the goals of providing a livable and walkable environment to all Atlanta citizens; providing transportation alternatives including coordinated and efficient bus and rail service, bike paths, and sidewalks; and providing safe and efficient roads and improved air quality, and

WHEREAS, the City Council supports the Administrations efforts towards increased funding in the Regional Transportation Plan for the City's priority projects, MARTA and other projects that reduce automobile dependence.

NOW THEREFORE BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ATLANTA, GEORGIA, as follows:

That this City Council supports the Mayor, the Atlanta Regional Commission and the City's transportation partners in their efforts in creating a long-range RTP and short-range TIP that will appropriately provide efficient and affordable transportation alternatives, congestion mitigation and improved air quality.

Be it Further Resolved: That this City Council supports the goals of providing efficient and affordable transportation alternatives including, but not limited to pedestrian and bicycle access; sidewalks and streetscapes.

Be it Further Resolved: That this City Council requests that the Atlanta Regional Commission (ARC) revise the currently released drafts of the 2030 Mobility long-range RTP and short-range TIP to appropriately provide efficient and affordable multi-modal transportation alternatives, congestion mitigation and improved air quality solutions.

Be it Further Resolved: That this City Council requests that ARC revise the currently released drafts of the RTP and the TIP to provide greater investment in transit systems; to adequately address environmental justice issues; to provide for reverse commutes and mobility for the City's older population; and to provide affordable transportation alternatives to the automobile.
